

MINISTRY OF EDUCATION

STATE DEPARTMENT FOR TECHNICAL, VOCATIONAL EDUCATION AND TRAINING

THE KISIWA NATIONAL POLYTECHNIC

CORDIALLY INVITES YOU TO OUR

INAUGURAL GRADUATION CEREMONY

ON FRIDAY, 24TH OCTOBER 2025 AT THE POLYTECHNIC
GRADUATION SQUARE, STARTING AT 8:00 AM.

Theme: **SKILLS, RESEARCH AND INNOVATION: THE CATALYST
FOR BETTER TOMORROW**

PROGRAM

23RD OCTOBER 2025

2:00pm – 3:00pm : Rehearsal

24TH OCTOBER 2025

8:00am – 8:30am :

- Graduands seated at the graduation square
- Entertainment

8:30am – 9:30am : Arrival of the Chief Guest

- Signing the visitors book
- Tree Planting
- Opening the tuition block

9:30am – 10:00am : Academic Procession (Staff & Guest)

10:00am – 10:15am : National Anthem
East African Anthem
Opening Prayer

- Muslim
- Christian

10:15am – 10:20am : Constitution of the Convocation

10:20am – 10:40am : Entertainment

10:40am – 11:40am : Speeches

- Alumni Representative
- President of Student Council
- Chief Principal
- Chair of the Governing Council
- Founding Father
- County Commissioner
- Chief Guest

11:40am – 11:50am : Launching of National Polytechnic Status

11:50am – 12:00 : Presentation of Special Awards

12:00noon – 12:45 pm : Awarding of Diplomas & Certificates
Vote of Thanks
Closing Prayer
National Anthem
Recession

MESSAGE BY THE PRINCIPAL SECRETARY

Good Morning!

Congratulations to Kisiwa National Polytechnic on the first graduation ceremony since its elevation to National Polytechnic. This is a defining moment that mirrors Kenya's remarkable transformation in Technical and Vocational Education and Training (TVET).

The Ceremony comes as the State Department for TVET accelerates comprehensive reforms to make skills training responsive to market needs and aligned with global standards. The reforms, anchored in Competency-Based Education and Training (CBET), Dual Training, Greening TVET and Digital Transformation, are reshaping Kenya's workforce development landscape.

Kenya's most transformative milestone has been the full rollout of CBET nationwide. To date, 312 curricula have been modularised, enabling trainees to progress through flexible, competency-based modules that recognise practical performance rather than study duration. More than 100,000 trainees are currently enrolled under CBET programmes, with over 45,000 assessed on real work performance. I note with commendation that Kisiwa National Polytechnic hastrainees enrolled in the modular curriculum.

This modular approach is providing flexibility for trainees to complete, pause and resume studies promoting lifelong learning and accommodating artisans, working youth and informal-sector professionals. It also strengthens Kenya's position within the African Continental Qualifications Framework (ACQF), ensuring regional recognition of skills.

The approved Dual Training Policy (2025) has deepened collaboration between TVET institutions and industry by integrating classroom instruction with workplace learning. So far, 7,876 trainees are enrolled in dual training across 64 institutions nationwide, supported by more than 1,400 industry training slots and 195 job placements created through structured engagements. This National Polytechnic has linkages with various industries.

Partnerships have been formalised with organisations including the Kenya Association of Manufacturers (KAM), Kenya Private Sector Alliance (KEPSA) as well as the State Department for Housing under the Affordable Housing Programme. These collaborations have produced tangible outcomes from industry training of ongoing trainees, expanding internship pipelines to placement of TVET graduates in jobs across the various industries.

Industry engagement has become the hallmark of Kenya's TVET reform. The mantra — train from industry, with industry, and for industry — has yielded significant dividends. Formal MoUs with industry leaders have enabled coordinated training, curriculum co-design and technology transfer.

Beyond local impact, Kenya's TVET graduates are finding opportunities abroad through structured labour-mobility programmes. 2,869 trainees have joined the UK Seasonal Workers Programme with Kisiwa National Polytechnic participating in the programme, 174 are employed under FullCare Medical SEZ, and 12,465 youth were mobilised under Kazi Majuu. The Polytechnic also hosted one of the recruitment drives for the national Kazi Majuu Programme, demonstrating its active role in linking training to global employment opportunities. These placements exemplify a

shift from “brain drain” to “brain gain” returning professionals who enhance local productivity with international experience.

In line with Kenya's climate commitments, 23 TVET curricula have been “greened” through collaborations with Eastern Africa Skills for Transformation and Regional Integration Project (EASTRIP), GIZ, Edukans and National Environment Management Authority. This reform embeds renewable-energy technologies, green construction and environmental management across training programmes, ensuring that graduates are prepared for the green and just transition.

As we celebrate thegraduands who will be awarded with various diplomas and certificates, I commend the institution's Council, management and staff for exemplary service and leadership in advancing skills excellence. Its new mandate as a national, qualifications-awarding institution demands adherence not only to national standards, but to global benchmarks.

The graduating class represents more than academic achievement; it embodies the country's vision of a skilled, ethical and future-ready workforce driving industrialization, sustainability and inclusive growth. Let us continually celebrate resilience, innovation and transformation, values that define Kenya's modern TVET sector.

Once again Congratulations, Class of 2025!

May your journey be guided by purpose, integrity and excellence.

Dr. Esther Thaara Muoria, PhD, CBS

PRINCIPAL SECRETARY

SPEECH BY MZEE DOMINIC KHAEMBA WETANG'ULA

Good Morning!

Congratulations to Kisiwa National Polytechnic on the first graduation ceremony since its elevation to National Polytechnic. This is a defining moment that mirrors Kenya's remarkable transformation in Technical and Vocational Education and Training (TVET).

The Ceremony comes as the State Department for TVET accelerates comprehensive reforms to make skills training responsive to market needs and aligned with global standards. The reforms, anchored in Competency-Based Education and Training (CBET), Dual Training, Greening TVET and Digital Transformation, are reshaping Kenya's workforce development landscape.

Kenya's most transformative milestone has been the full rollout of CBET nationwide. To date, 312 curricula have been modularised, enabling trainees to progress through flexible, competency-based modules that recognise practical performance rather than study duration. More than 100,000 trainees are currently enrolled under CBET programmes, with over 45,000 assessed on real work performance. I note with commendation that Kisiwa National Polytechnic hastrainees enrolled in the modular curriculum.

This modular approach is providing flexibility for trainees to complete, pause and resume studies promoting lifelong learning and accommodating artisans, working youth and informal-sector professionals. It also strengthens Kenya's position within the African Continental Qualifications Framework (ACQF), ensuring regional recognition of skills.

The approved Dual Training Policy (2025) has deepened collaboration between TVET institutions and industry by integrating classroom instruction with workplace learning. So far, 7,876 trainees are enrolled in dual training across 64 institutions nationwide, supported by more than 1,400 industry training slots and 195 job placements created through structured engagements. This National Polytechnic has linkages with various industries.

Partnerships have been formalised with organisations including the Kenya Association of Manufacturers (KAM), Kenya Private Sector Alliance (KEPSA) as well as the State Department for Housing under the Affordable Housing Programme. These collaborations have produced tangible outcomes from industry training of ongoing trainees, expanding internship pipelines to placement of TVET graduates in jobs across the various industries.

Industry engagement has become the hallmark of Kenya's TVET reform. The mantra — train from industry, with industry, and for industry — has yielded significant dividends. Formal MoUs with industry leaders have enabled coordinated training, curriculum co-design and technology transfer.

Beyond local impact, Kenya's TVET graduates are finding opportunities abroad through structured labour-mobility programmes. 2,869 trainees have joined the UK Seasonal Workers Programme with Kisiwa National Polytechnic participating in the programme, 174 are employed under FullCare Medical SEZ, and 12,465 youth were mobilised under Kazi Majuu. The Polytechnic also hosted one of the recruitment drives for the national Kazi Majuu Programme, demonstrating its active role in linking training to global employment opportunities. These placements exemplify a shift from "brain drain" to "brain gain" returning professionals who enhance local productivity with international experience.

n line with Kenya's climate commitments, 23 TVET curricula have been “greened” through collaborations with Eastern Africa Skills for Transformation and Regional Integration Project (EASTRIP), GIZ, Edukans and National Environment Management Authority. This reform embeds renewable-energy technologies, green construction and environmental management across training programmes, ensuring that graduates are prepared for the green and just transition.

As we celebrate thegraduands who will be awarded with various diplomas and certificates, I commend the institution's Council, management and staff for exemplary service and leadership in advancing skills excellence. Its new mandate as a national, qualifications-awarding institution demands adherence not only to national standards, but to global benchmarks.

The graduating class represents more than academic achievement; it embodies the country's vision of a skilled, ethical and future-ready workforce driving industrialization, sustainability and inclusive growth. Let us continually celebrate resilience, innovation and transformation, values that define Kenya's modern TVET sector.

Once again Congratulations, Class of 2025!

May your journey be guided by purpose, integrity and excellence.

SPEECH BY THE CHAIRMAN OF THE COUNCIL MARTIN RICHARD WAMALWA.

Good Morning!

Today is a beautiful day as you can see, the sun is shining, the smiles are wide, the gowns are bright — and Kisiwa National Polytechnic and even the community around here is alive with joy and pride. This gives me great joy and pride to stand before you this morning on this historic and momentous occasion — the Inaugural Graduation Ceremony of Kisiwa National Polytechnic.

Today, we gather here not only to confer certificates and diplomas, but to celebrate excellence, transformation, and hope. On behalf of the Governing Council of Kisiwa National Polytechnic, I warmly welcome you all and extend heartfelt congratulations to our proud graduands (lets put our hands together for our graduands) you are the men and women who have worked hard, persevered, and today you stand here as a testament to the power of skill and determination. I sincerely congratulate all of you.

Before we proceed, allow me to acknowledge the Members of the Governing Council — Kindly our council members come forward! Introduce each. These are visionary leaders who have steered this institution with wisdom, integrity, and commitment. Kindly our council members come forward! I also wish to recognize and honour our founding father, Mzee Dominic Khaemba Wetan-gula, whose vision together with his colleagues laid the foundation upon which this great institution stands.

To the Chief Principal, and your entire team — thank you for your leadership and strategic foresight that have transformed Kisiwa from a Technical Training Institute into a fully-fledged National Polytechnic. Our guests, Kisiwa National Polytechnic is not just an institution — it is a forge of dreams, a home of innovation, and a hub of transformation.

Here, we don't just teach people how to earn a living; we teach them how to make a difference. We train hands to work, minds to think, and hearts to serve.

Our programs — from Electrical and Electronics, Civil Engineering, Automotive Engineering, Hospitality, Business Studies, Agriculture, Welding, and Applied Sciences — empower learners from the artisan level to diploma, step by step, skill by skill. Someone once said, "A university graduate can explain how an engine works, but a polytechnic graduate can fix it while it's still running!" "A university graduate can draw the plan of a house, but a polytechnic graduate can build it from the ground and make sure the roof doesn't leak!" So, if your wall cracks, just call one of our graduates! That's the Kisiwa difference — we produce builders, not just dreamers. Under the stewardship of the current Council, Kisiwa National Polytechnic has recorded remarkable transformation and innovation.

- We have reviewed and implemented the Strategic Plan (2023–2027) to align with national priorities in skills, innovation, and industrialization.
- We have completed major infrastructure projects, including the Tuition Block Complex and the state-of-the-art Hospitality and Tourism Centre.
- We have established Income-Generating Units (IGUs) such as the Kisiwa Polytechnic Bakery, providing both practical learning and sustainable income.
- We have been designated by the Ministry of Investments, Trade, and Industry as a Centre of Training in Leather Technology, further cementing our status as a regional hub for industrial value addition.
- We have accredited new programs through TVETA, and deepened partnerships with industry, development partners, and communities to ensure market-relevant training. These milestones are a testament to sound governance, prudent resource management, and teamwork.

Ladies and gentlemen, our country cannot industrialize on theory alone. It takes technicians, builders, welders, electricians, designers, and innovators — people like you, our graduands. TVET is not second-class education — it is first-class relevance. It is the bridge between knowledge and prosperity, between potential and productivity.

When you train one welder, you build infrastructure, when you skill one electrician you light the whole village, when you empower one farmer, you feed a nation. That is the transformative power of technical and vocational education — and that is the mission of Kisiwa National Polytechnic.

Therefore, as we celebrate these achievements, we are aware that much more remains to be done. We therefore appeal to the Government and our partners for continued support of Kisiwa Polytechnic, particularly in infrastructure expansion, modern training equipment, trainer development, and industry linkages. We plan to complete the engineering complex, expand tuition blocks to accommodate new intakes, construct a health science complex, expand our land acreage, develop a sustainable water system among other plans that we have. All these development plans require your support. The access road to this institution is in pathetic condition and we appeal to the National and county Governments to improve on this road. It gives a very bad image leading to such a serious institution that serves a population of over 12,000 people.

To our partners in Government, Industry, and Development Agencies — we remain deeply grateful for your continued collaboration and support. Your partnership strengthens our mission to produce graduates who are not only employable but transformative, please continue to support us.

Our dear Graduands, behind every certificate today is a story — of long days in workshops, of patience, sweat, and persistence.

You have not only earned a qualification, but also a responsibility — to use your skills to build, create, and innovate. Don't wait to be employed — employ yourself. Don't wait for opportunities — create them.

Be bold, ethical and intentional. We have given you skills, go out there and use them to connect electricity to the community, build houses for people, connect water into peoples' homes, repair and drive motor vehicles for people, teach the community sustainable agricultural practices, establish small and medium business enterprises, Be the change this nation needs. Carry with you the spirit of Kisiwa — Excellence, Diligence, and Service to Humanity.

To our dedicated trainers — you are the quiet heroes of this success story. You have worked with limited tools but unlimited passion. You have shaped minds and molded talent. On behalf of the Council, we thank you sincerely.

To our dear parents and guardians: We sincerely thank you for trusting us with your sons and daughters, for your sacrifices, and for supporting their education through Kisiwa National Polytechnic. Your decision to invest in their skills is a decision to invest in the nation's future. Continue believing in us as partners in building a better Kenya.

To our neighboring community: We are deeply grateful for your hospitality and support — from providing land and facilities to accommodating our learners and staff. Your cooperation has been vital to our growth, and we look forward to continued partnership for shared progress and development.

To all our distinguished guests who have come to grace this inaugural graduation ceremony, we extend our deepest appreciation for taking time out of your demanding schedules to join us in celebrating this remarkable milestone. Your presence today brings great honor and significance to this occasion, and indeed, it would not have been the same without you.

Rt. Hon. Speaker Sir, and all our guests, once again, I welcome you all to Kisiwa National Polytechnic — a place where skills meet opportunity, where dreams take shape, and where the future of our nation is being built.

Karibuni sana!
May our good lord bless you all.
God bless Kisiwa National Polytechnic.
God bless Kenya.

SPEECH BY CHIEF PRINCIPAL

Good Morning!

It gives me great pleasure to warmly welcome you all to this historic occasion — the **Inaugural Graduation Ceremony of the Kisiwa National Polytechnic (KISNAP)**. Today we gather under the banner of triumph, hope, and gratitude to the Almighty God for the gift of life, peace and wisdom as we celebrate this momentous milestone. This day marks a new chapter in our journey towards excellence in CBET assessment and certification. It is a celebration of hard work, discipline, and determination — not only of our Graduands but also of the entire Kisiwa fraternity, our partners, and the community we serve. We feel greatly honoured by your presence. We are proud to be associated with you.

Theme of the Graduation

This year's theme, "Research, Innovation, and Skills: The Catalyst for a Better Tomorrow," perfectly captures Kenya's direction under Vision 2030, the Bottom-Up Economic Transformation Agenda (BETA), and the Sustainable Development Goals (SDGs).

In an era shaped by technological disruption, climate change, and shifting labor markets, technical skills have become the foundation of sustainable national and global growth. We have cultured Our graduates to be more of innovators, creators and solution providers than mere job seekers. I encourage employers to raise their interest in our competent workforce.

Institutional Achievements

Since our last graduation in 2022, the Kisiwa National Polytechnic has made tremendous progress toward becoming a Centre of Excellence in development of competent and skilled manpower: In the

In the light of this, we have systematically attained the following: -

- 1) Enrolment Growth: This has grown from 5,657 in 2022 to 11,427 in 2025, a remarkable 102% increase. The enrolment rose by close to 4,000 in the last one year.
- 2) Infrastructure Development: We completed a Tuition Block in 2024. The Hospitality and Tourism Centre is at 82% completion. The building is fully funded by the Council of KISNAP.
- 3) Innovation Milestones:
 - o Five-functional folding bed, showcased during the Africa Public Service Week in Ethiopia (June 2025), earned both national and continental recognition, flying Kenya's flag high on the international stage.
 - o The Kisiwa Learning Management System (KLMS), developed in-house, is under commercialization to support digitalized training management across TVET institutions.
- 4) Industry Linkages: We have built 33 active partnerships with hospitals, hotels, and manufacturers for attachments, mentorship, and job placement.
- 5) Institutional Upgrade: The upgrade to National Polytechnic under Legal Notice No. 118 of 2025 is worthy celebrating especially in the light of the expanded mandate. We have a clearly defined implementation strategy maturing by March 2026.
- 6) Co-curricular Excellence: Our trainees excelled in both national and regional competitions; Cestoball team emerging national champions. 6 of our trainees are in the national team proceeding to Zimbabwe for a continental championship. Our scouts also emerged top position and are proceeding to Tanzania to represent our country.

7) **Inclusivity and Integration:** We continue to champion for inclusivity, ensuring that persons with disabilities (PWDs) are fully integrated in all our programs. We have plans to improve our infrastructure to ensure that these trainees are not disadvantaged in any way.

8) **Greening:** The Polytechnic has contributed immensely to the greening initiative by H.E the President of the Republic of Kenya by planting and distributing more that 38,000 tree seedlings in the last four months

Challenges and Opportunities

Challenges come in many forms — some shake our confidence, others reveal our true strength. But in every challenge lies an opportunity to grow.

- **Completion and equipping of the Engineering Complex**

A tuition block hosting four workshops and tuition rooms. It is a three storey building by design and is currently stalled on ground floor though in use. It needs urgent attention to be saved from harmful weather conditions.

- **Establishment of a Modern Health Sciences Complex:** the department is home to 1,500 trainees. There is an acute shortage of tuition rooms and labs. We need a complex that will not only be for tuition but also for hands on practical lessons.

- **Acute shortage of trainers:** Currently, we have 121 trainers serving on Council terms. The wage bill is indeed unsustainable.

Acknowledgements and Appreciation

- We're sincerely thankful to the Ministry of Education and the State Department for TVET for their steady fast policy direction and support.

- To our sponsors – KCB Bank, Coop Bank, DTB Bank and others not mentioned here, we are proud of you. Thank you for supporting us in this graduation. We will continue to work with you.

- To our industry partners — The Bungoma County Referral Hospital, leading hotels, and manufacturing firms — we thank you for providing industrial exposure and real-world experience to our trainees. We invite you to co-design curricula, expand apprenticeships, and establish innovation hubs that bridge training with real-world applications

- To the Council, ably chaired by our distinguished Chairperson, thank you for your strategic leadership and support.

- To our academic and non-academic staff, your resilience, creativity and teamwork remain the cornerstone of our success. Thank you for your dedication to the KISNAP Vision and Mission.

- To the parents and guardians, your sacrifices and faith in us made this day possible — you are the unsung heroes of today's success.

Message to the Graduands

Graduands of 2025 — Congratulations!

This graduation is the fruit from your hard work, resilience, focus and unwavering pursuit of excellence. You have conquered challenges, embraced innovation and demonstrated that with faith and determination, every dream is achievable.

This celebration also honors the collective effort of your parents, guardians and the Kisiwa community who have walked with you on this transformative journey. I urge you to join the alumni community of KISNAP and build a strong team that participate in the implementation of the Vision and Mission of this great institution

As you exit, remember the values that KISNAP instilled in you: Integrity, Creativity and Service.

Be innovators — continue innovating by transforming challenges into opportunities.

Be ethical professionals — let honesty and diligence define your careers.

Be entrepreneurs and nation builders — create opportunities for yourselves and others.

Always remember the Almighty God and have faith in him.

Call to Stakeholders and Partners

We are grateful for your support and appeal for your continued collaboration.

We welcome our alumni to mentor and inspire the next generation, strengthening the Kisiwa legacy of excellence and transformation.

Conclusion

As I conclude, I am reminded of the timeless words of Nelson Mandela:

“Education is the most powerful weapon which you can use to change the world.”

Together, let us continue to build a strong, innovative, and globally competitive Kisiwa National Polytechnic that transforms lives through skills and competencies.

Thank you and God bless you all.

God bless Kisiwa National Polytechnic.

God bless our Chief Guest today

God bless Kenya.
